

## HOOKS Sorting Hooks

LBNO Sorting Hooks are designed with safety handles to help eliminate the hazard of crushed hands. The generous deep throat dimensions allow for efficient handling of pipe or flat steel plate. The long tapered point allows for easy grabbing of steel beams, links, rings, eye bolts and/or lifting holes.

When ordering Always Specify **LBNO Quality Sorting Hooks**. All of these advantages have been demonstrated over and over again, by outstanding on-the-job performance..

<b>SORTING OR SHAKE OUT HOOK WITH SAFETY HANDLE</b>	<b>CAST ALLOY STEEL HEAT TREATED</b>
