

## UPC Chain Through Buoys

### PERFORMANCE FEATURES:

- Wear & abrasion resistant outer skin.
- Impact absorbing technology prevents damage to buoy or vessels.
- Closed cell foam core fill prevents loss of buoyancy if punctured.
- Corrosion resistant construction.
- Easy to handle.
- Lighter than conventional steel buoys.

### CONSTRUCTION FEATURES:

- Tough, thick heavy duty filament nylon reinforced urethane skin.
- Impact absorbing closed cell outer foam core.
- U.S. Coast Guard approved inner rigid closed cell urethane foam core.
- Steel core central strength member with load distribution structure.
