

Semi-Spherical Support Buoys

Features:

- Wear & abrasion resistant outer skin.
- Impact absorbing technology prevents damage to buoy or vessels.
- Closed cell foam core fill prevents loss of buoyancy if punctured.

Construction Features:

- Tough, thick heavy duty filament nylon reinforced urethane skin.
- Impact absorbing closed cell outer foam core.
- U.S. Coast Guard approved inner closed cell urethane foam core.
- Steel Core central strength with load distribution structure.
