TANGENT™

It's not just poly lumber, it's better

Tangent materials are the superior wood alternative that outperform all the rest. With a combination of strength, durability and aesthetics, our material finish and quality are unmatched.

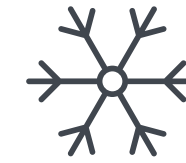

**MADE IN THE
U.S.A.**

**ENVIRONMENTALLY
FRIENDLY**

The highest performing materials
**that stand up to whatever mother
nature throws at them.**

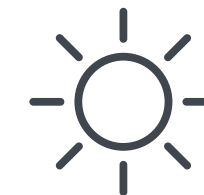

SNOW

Tangent materials remain durable regardless of the weather or environment.

RAIN

Tangent materials do not absorb moisture, and so they will not rot or corrode.

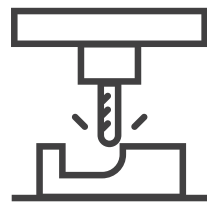

SUN

Tangent materials are manufactured with UV inhibitors to keep colors vibrant and long-lasting.

When you need alternative materials of the **highest quality**, there's no alternative to Tangent.

EASY TO INSTALL

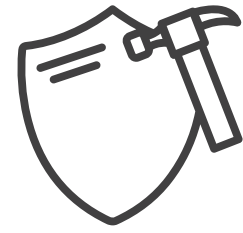

Easy to install with traditional tools and hardware, and always safe for the environment.

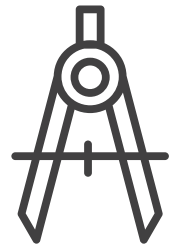

CUSTOM SOLUTIONS

We are experts at creating the right product for every application, with engineered solutions custom built to your needs.

EXCEPTIONAL STRENGTH
The most durable, impact-resistant materials available.

ENGINEERED SOLUTIONS
Tailored products that deliver on customer needs.

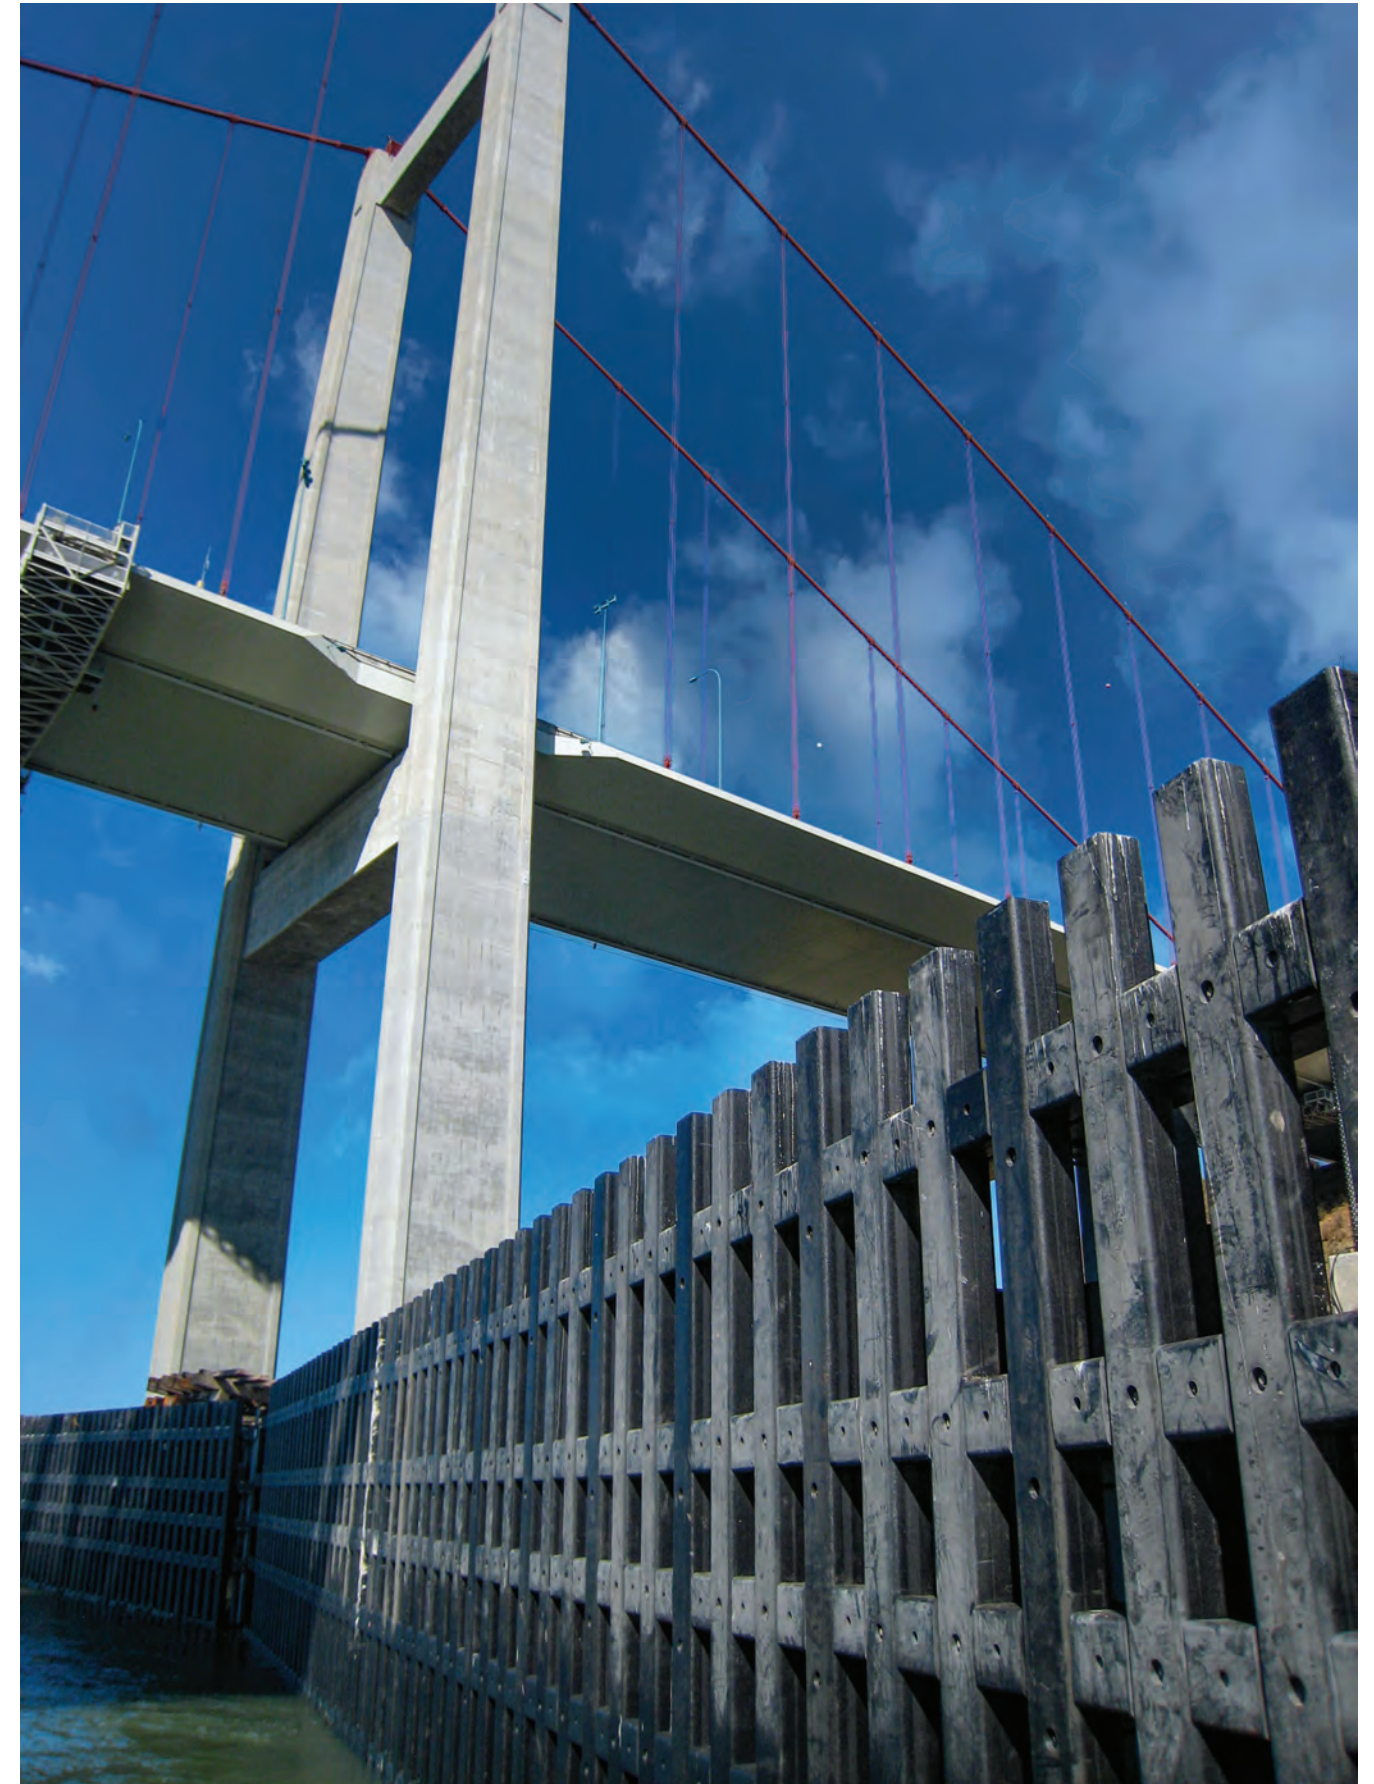

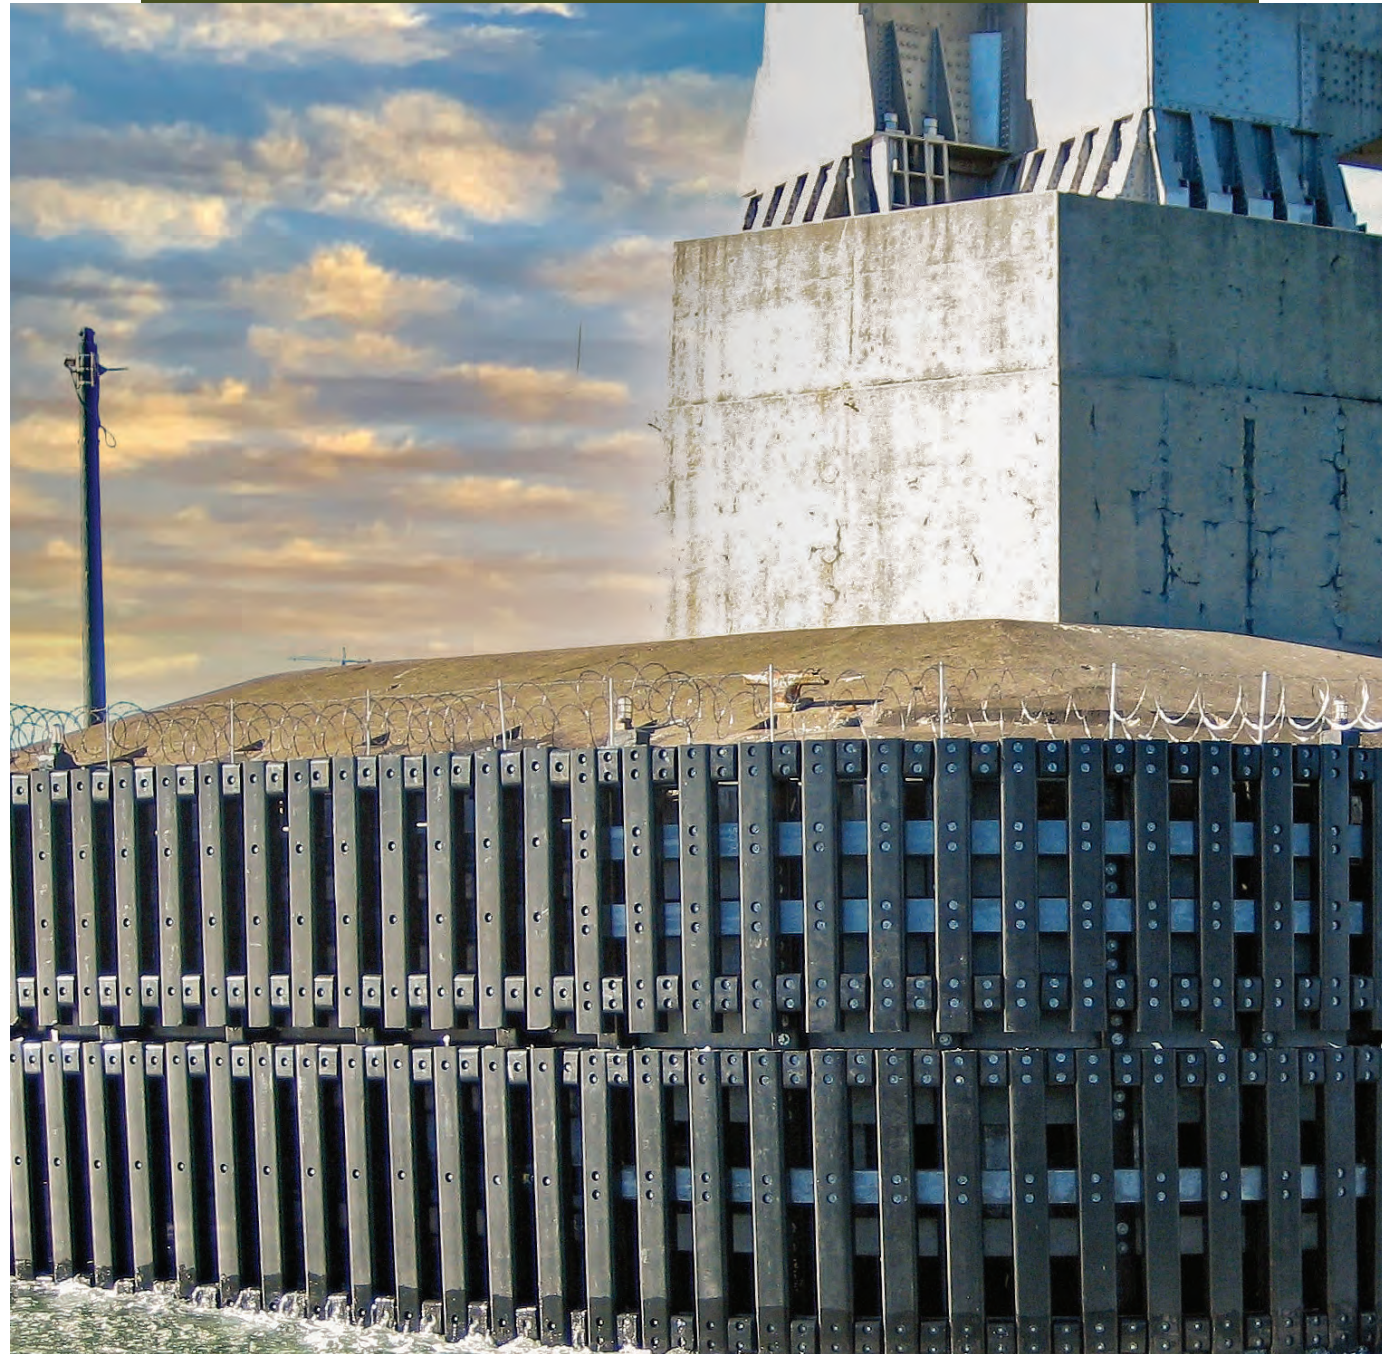

ENVIRONMENTALLY-FRIENDLY
Made from recycled materials and won't leach toxins.

When it comes to
Marine Applications,
Tangent delivers unrivaled performance you can depend on.

Where strength meets durability, we give you both at the highest level.

What can we create **together?**
